

Letter of Recommendation for Jessie Barret

My Husband and I were in the market to purchase our first home and originally we had a different realtor than Jessie who did show us a few houses, when we stumbled upon our dream house the realtor kind of gave us the feeling we had no chance. My mother had mentioned that a previous neighbor Jessie had been a realtor. We decided to give Jessie a call and I mentioned to her the house I was interested in and immediately Jessie started working to make this home possible for us. I have heard the home buying experience was intense, hard, and drawn out, naturally we were a little nervous but Jessie made the process very smooth and comfortable. "Signing the Papers" was a breeze as well. Today we sit in our dream home (the one which some said we had no chance) and we are very very grateful for Jessie and her ability to take quick action. Even when we had small questions Jessie was always kind enough to take time and help us. Thanks for all your patience and we would definitely recommend Jessie Barret to anyone in the market looking for a home. We can't thank you enough and words can't express the gratitude that we feel. Jessie you were awesome thank you thank you thank you!!

Sincerely,
Felicia and Jose Diaz
